Are you looking to join the most innovative short-span bridge team in Canada? We are looking for you!

Job Description

As a Pier Solutions bridge craftsperson, you are tasked with providing bridge maintenance and construction services to improve the quality of bridges across western Canada.

While reporting to your site foreman, your responsibilities will include:

- Operating hand tools and power tools
- Operating heavy equipment when required
- Maintenance on company-owned equipment when required
- Supporting site foreman and project manager in coordinating work when required
- Identifying creative construction methods to complete work requirements efficiently
- Supporting safety coordinator in completing daily and project-specific safety requirements

Other Requirements

- Ability to work on the road in western Canada
- Class 5 license; Class 3 or 1A is very beneficial
- Carpentry experience preferred
- Bridge experience preferred

Application

Please submit your resume and cover letter to team@pier-solutions.ca. Please email us if you intend to apply or if you have any questions. We are excited to hear from you!

Our Mission

Bridges in rural Manitoba and Saskatchewan are being replaced instead of repaired or neglected instead of maintained, adding undue cost to taxpayers.

- ✓ Our Solution: we collaborate with local leaders to provide fiscally responsible, proactive, and preventative maintenance options.
- ✓ Our Advantage: we empower clients by uniquely combining engineering and construction expertise.

Our clients include municipal, provincial, and federal governments, First Nations peoples, short-line rail companies, and trail associations. Our body of work consists of vehicular, rail and pedestrian bridges.

Apply today to join the prairie's leading rural bridge company! Find out more about us at www.pier-solutions.ca
